SUBJECT: Referred to Region - Indiana

Tip or Complaint: When the wind is blowing north, we get a strong odor of sulfuric acid over our entire neighborhood. Many times this odor covers the entire downtown area. It seems to be from a discharge of contaminants being discharged from the above site. **Exemption 6-Personal Privacy** my neighbor and I have been discussing this for some time and he has driven the entire downtown area to locate this address as the violator.

Specific Directions: 1509 S Senate, Indianapolis is just south of downtown Indianapolis.
